Subject: Re: Microsoft Settlement

To Whom It May Concern:

I would like to urge the Justice Department to stop the litigation against Microsoft. I think the settlement is fair to everyone except of course, Microsoft itself. I personally use Microsoft Windows and Microsoft Word and other programs. I am 79 years old and have found these programs easy to learn and to use. I would not be interested at all in changing to other programs.
Please stop the litigation. Thank you.
